Article specification:

Roll length:	~47 m	Width:	146 cm + - 2 cm
Usable width:	142 cm + - 2 cm	Weight m DIN EN 12127:	890 g + - 5 %
Thickness:	1.6 mm + - 2 %	Weight m² DIN EN 12127:	610 g + - 5 %

Composition:

	Surface EU 1007/2011:	58% polyester, 30% viscose, 6% linen, 6% cotton
	Base EU 1007/2011:	-

Typical product characteristics:

				
washing	bleaching	drying	ironing	dry cleaning

Typical product characteristics:

In the case of light colors, a color migration can occur in combination with dark or intensive color tones. Pilling is unavoidable and can also be caused by the adhesion of other fibers. In use, any flat weave will roughen up and patina and gloss spots can occur. Loop pulls are to be expected when hooked to pointed objects. Depending on the material, a slight streaking effect may occur. Light colors show dirt and denim abrasion faster and more clearly than dark colors. In the course of time, a certain amount of fading due to light or abrasion is also in the nature of a natural fiber mix fabric. Dark and intense colors tend to rub off. Slight color and structure deviations between the production batches cannot be ruled out. Thickening of the threads may result in an irregular fabric appearance. Upholstery fabrics made of natural fibers tend to have low light fastness and are usually sensitive to creasing.

Instructions for use and care:

Please take note of the instructions for use and care at www.eurotex2000.com | care instructions. We assume no warranty for damage caused by improper use, cleaning, care, subsequent impregnation and pets.
